

**AT LAST –
A FABRIC PROTECTOR
THAT KEEPS INTERIORS
AS GOOD AS NEW LONGER**

If you are concerned that your interiors may suffer damage from spills, UV sun fading, or premature wear, *MicroSeal* is a completely safe and proven solution.

MicroSeal is so effective, that it continues to protect even after many professional cleanings; this is because *MicroSeal* not only coats the fibres, it penetrates them, slowing down the wear and abrasion on carpets, rugs and soft furnishings, extending their life by up to 60%.

Unlike other protectors, *MicroSeal*, has been tested by **Independent** Laboratories who have provided reports to back up our claims.

At Rug Renovating we take great pride in our service and we are absolutely committed to helping you maintain your interiors; we know that *MicroSeal* is the perfect product to care for your belongings.

Please visit our website where there is much more information. There is also a short 3 minute "wine on silk" video demonstrating how fantastic this product is, simply scan the QR code below or visit www.rugrenovating.com/microseal

MicroSeal is a revolutionary product but it will not prevent permanent staining from bleaches, dyes or acids.

**THE BENEFITS OF MICROSEAL®
PERMANENT FABRIC PROTECTION**

MicroSeal Permanent Fabric Protection is safe for you, your family, your pets, your belongings and the Environment

NON-TOXIC AND NON-ALLERGENIC
No Fluorochemicals or PTFE Resin (non-stick)

PERMANENT STAIN PROTECTION

to be perfect..."*

*"Microseal will help
keep it that way"*

What Clients Say...

"...The Designers in the store and I have recommended MicroSeal to all our customers for 15 plus years."

Pamela N, Kreiss Collection Furniture.

"...I had my 70% silk (and the rest poly-cotton) blend sofa MicroSealed... Not once did I need to have it professionally cleaned... Other than minimal sun fading on a few small areas, the sofa looked new even after twelve years of heavy use!... I highly recommend MicroSeal to my friends and clients."

Kim Grieff, Residential Designer, AJS Designs

What Independent Testing Laboratories Say...

"MicroSeal is effective in reducing fabric degradation from UltraViolet A & UltraViolet B"

Chem Tech, Texas - Test Report

"MicroSeal reduces wear... MicroSeal shows a useful degree of permanency".

Chatfield Applied Research Laboratories, London

"The MicroSeal formula is effective against oil based stains" (oil based stains include chocolate, butter, makeup, oil, mayonnaise, grease, tar)

TRI Environmental INC, Texas, USA

"MicroSeal meets the stringent testing standards of the Woolsafe Organization"

Woolsafe Organization UK - Test Report

Medically Rated: Non-Toxic and Non-Allergenic, Biodegradable and California VOC Compliant when wet. Zero VOC's when dry. No fluorochemicals.

ACCIDENTS HAPPEN ... MICROSEAL® PROTECTS

IMAGINE A LIFE WITH.... Silk and fine fabrics that do **NOT** fade or discolour, spills that simply blot away and interiors that last longer and can withstand the rigors of living in the 21st Century...

MicroSeal Protects more than you realise:

Persian, Oriental, area rugs, handmade rugs,

- Extends the life of valuable textiles

**Installed carpets, upholstered furniture and
soft furnishings**

- Protects and prevents staining and soiling from the start

**Smooth leather and suede furniture, wall coverings,
and luggage (including shoes, boots and handbags)**

- Natural and man made fibres

**Quilts, new mattresses, fabric headboards
and bedspreads**

- Protect your home's investments

Car, boat and aircraft interiors

- MicroSeal can withstand the harshest of environments
and situations

**Costumes (including wedding dresses and
evening gowns)**

- Protection for personal items also

All silk, wool, cotton, natural and synthetic fabrics

- Protection for all fibrous materials

The Benefits of MicroSeal are the ones you'll never see...

MicroSeal Permanent fabric protector has been used worldwide for over 30 years; compared to other protectors it offers many advantages:

- Penetrates fibres and survives for years of protection
- Doesn't shrink or stain fabrics and fibres
- Increases wear resistance
- Reduces smoke density and flame spread if fabric or fibres catch fire
- Mildew and static resistant
- Only attaches to fibres and will not seal in stains
- Does not damage woodwork, metal, paint or glass
- Environmentally Safe
- Can be used on any material with a fibrous nature, including wool, cotton, silks, synthetics, smooth-finished leathers and suede
- It's non-toxic and non-allergenic
- Permanent sun fade resistance by nearly 100% on most fabrics, carpeting and rugs
- Proven and tested by Independent Laboratories

Safe for all your Family

Corporate Interiors

Residential Interiors

Perfect for Fine Silks
